Michael D. Matzura, LEED AP Becomes a Certified Energy Manager

NORTH BRUNSWICK, NJ, (July 13, 2010) – Energy Squared, LLC, an innovative energy design consultant firm, is proud to announce that Principal Michael D. Matzura, LEED AP has earned the Certified Energy Manager (CEM) designation from the Association of Energy Engineers (AEE). As a CEM, Matzura is officially recognized for his years of experience, proven expertise and ethical assessments in the energy management industry.

Among the elite professionals of the energy management field, Matzura is also a United States Green Building Council's (USGBC) Leader in Environmental and Energy Design Accredited Professional (LEED AP) and Department of Energy Certified Industrial Assessment Center Auditor. Specializing in central heating/cooling applications, low temperature radiant heating/cooling systems and controls, he worked with the New York State Energy Research and Development Authority (NYSERDA) on their New Construction and Commercial Industrial Performance Programs and has performed well over 60 energy audits for a wide range of facilities.

Recognized by the US Department of Energy, the Office of Federal Energy Management Programs (FEMP) and the US Agency for International Development, as well as by numerous state energy offices, major utilities, corporations and energy service companies, the CEM credential has become a widely accepted measure of professional accomplishment within the energy management field.

“Michael has been a great asset to this company and we are very proud of his accomplishments” said Energy Squared Principal Mitchell H. Frumkin, PE, CGP. “We are honored to have one of a limited number of professionals who have earned this prestigious title on our team of energy experts.”
